LOYOLA UNIVERSITY MEDICAL CENTER
(2 blocks south on First Avenue)

Caduceus 1998
Loyola University Chicago
Stritch School of Medicine

History of the Stritch School of Medicine

Loyola University Chicago was founded in 1870 and moved from Chicago's west side to what is now the Lake Shore Campus in 1909. Recognizing the need for a strong medical school, Loyola affiliated itself with Illinois Medical College in 1909 and with Bennet and Reliance Medical Colleges the following year. In 1915, the control of this loose organization was passed to the University trustees and became the Loyola University School of Medicine.

A home for Loyola's medical school was chosen in 1917 with the purchase of the old Chicago College of Medicine and Surgery building on South Wolcott Avenue across the street from Cook County Hospital. Loyola's efforts to improve its medical school facilities were limited by a lack of funds until the 1940's when Samuel Cardinal Stritch lent his name to an annual fund raising dinner that has become the main source of continuous financial support for the medical school. In his honor, Loyola renamed its medical school the Stritch School of Medicine.

With new-found funds and Cardinal Stritch's encouragement, Loyola began planning for the construction of a new medical school building. Several sites were considered before the University decided on a site in Maywood just adjacent to the Hines Veterans Administration Hospital. Official construction on Loyola University Medical Center was begun in 1965, and by 1969 the new medical school was in operation. In honor of a generous benefactor, the new teaching hospital was named Foster G. McGaw Hospital of Loyola University.

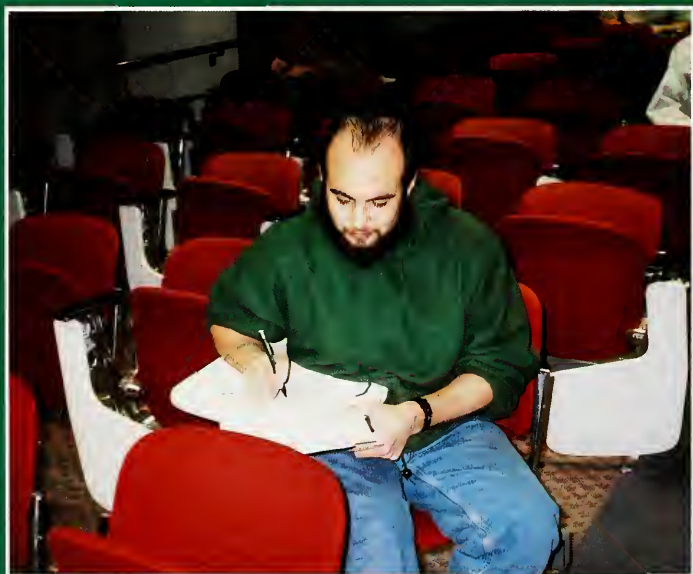

As the demand for medical care has grown, Loyola has expanded to meet the need. The first patients walked through the doors of the new Mulcahy Outpatient Center in 1981. In 1986 a new nine story building, the Russo Surgical Pavillion was added to the medical center complex. In the same year, Loyola was designated as a Level I Trauma Center for the State of Illinois. Two years later the Loyola Lifestar Helicopter Emergency Medical System was fully in operation. The state-of-the-art Emergency Care Facility was completed in 1991.

The 125,000 square foot Cancer Center opened in September 1994 and was renamed the Cardinal Bernardin Cancer Center in 1996 in honor of the late Joseph Cardinal Bernardin who received his medical care at Loyola.

The Stritch School of Medicine proudly opened a brand new Medical Education building on August 1, 1997 and the new Center for Health and Fitness in December 1997. The continuous growth and improvement of the Loyola University Medical Center has resulted in the fulfillment of Samuel Cardinal Stritch's vision: the creation of a major medical center that is ever-changing to better serve the needs of the community.

Today is your day.
 You're off to great places!
 You're off an away!
 You have brains in your head.
 You Congratulations!
 have feet in your shoes.
 You can steer yourself
 any direction you choose.
 You're on your own.
 And you know what you know.
 And you are the guy who'll decide
 where to go.
 And will you succeed?
 Yes! You will, indeed!

Medical science should stop coming out with new disorders. We already have plenty of disorders, say, carpal tunnel syndrome, which nobody ever heard of before and which actually sounds like a fish disease, but which suddenly afflicts one out of every six Americans.

What is to come we know not. But we know
That what has been was good...
Let the great winds their worst and wildest blow,
Or the gold weather round us mellow slow;
We have fulfilled ourselves, and we can dare
And we can conquer, though we may not share
In the rich quiet of the afterglow
What is to come.

If you think you're beaten, you are.
If you think you dare not, you don't.
If you'd like to win, but think you can't,
it's almost a cinch you won't.

If you think you'll lose, you're lost.
For out in the world we find,
success begins with a person's faith.
It's all in the state of mind.

Life's battles don't always go
to the stronger or faster hand.
They go to the one who trusts in God
and always thinks, "I Can."

May I be the doctor and the medicine
And may I be the nurse
For all the sick beings in the world
Until everyone is healed.

May a rain of food and drink descend
To clear away the pain of thirst and hunger
And during the aeon of famine
May I myself change into food and drink.

May I become an inexhaustible treasure
for those who are poor and destitute;
May I turn into all things they could need
And may these be placed close beside them.

At the Carlisle...

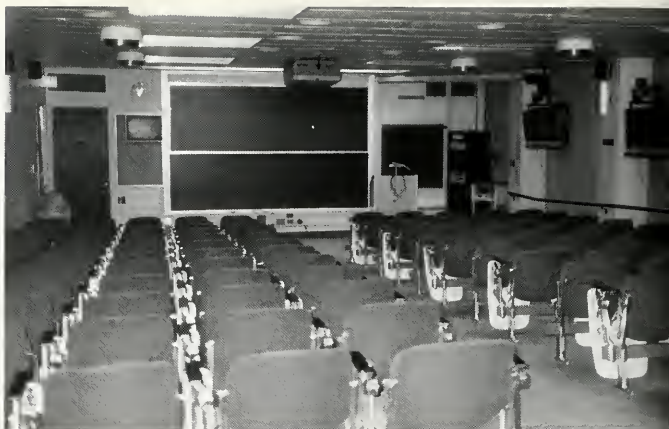

First Year

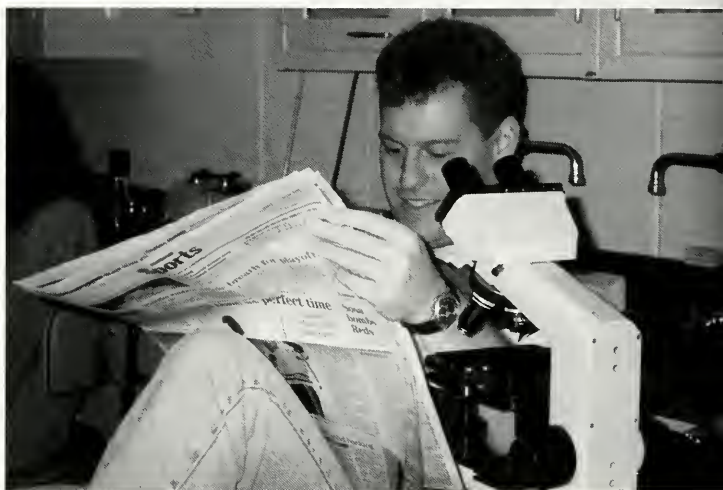

Our beautiful lecture hall facility.

Michelle looks on as Tonia demonstrates an anatomical relationship in small-group.

After breezing through 15 histo slides, Ted kicks back to catch up on the daily sporting news.

First-year intramural "A" team.

Smile Jenny!

Elaine, Matt, Darin, Neeru and Sean try to look professional in their new white coats.

Fledgling medical students as they appear, unscathed, during Orientation Week.

Dancing fools--Big Bro'/Big Sis' talent show. "Gonna keep on, keep on, keep on dancin' all through the night..."

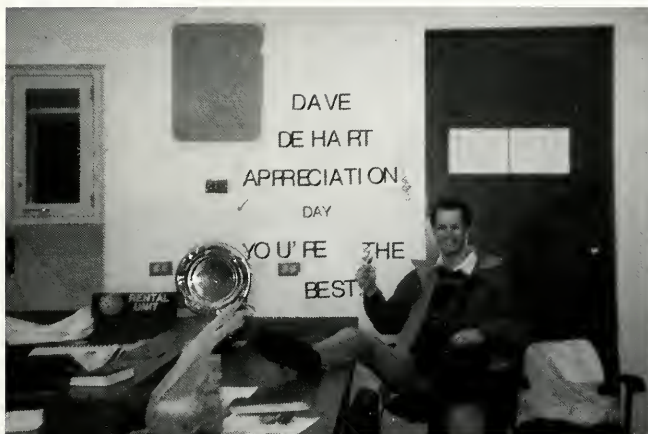

What is missing here? Answer: Partially clad/semi-nude first-year students changing into Anatomy garb.

Michigan Ski Trip, 1995. "Four slobs in a tub":
Darin, Dave, Greg and Charlie relax after a tough
day on the slopes.

Alissa, Karole and Julie mill around the MDL
hallway.

It's Friday night, the Biochem final was easy,
and these guys are ready to party.
(Hites can barely contain himself)

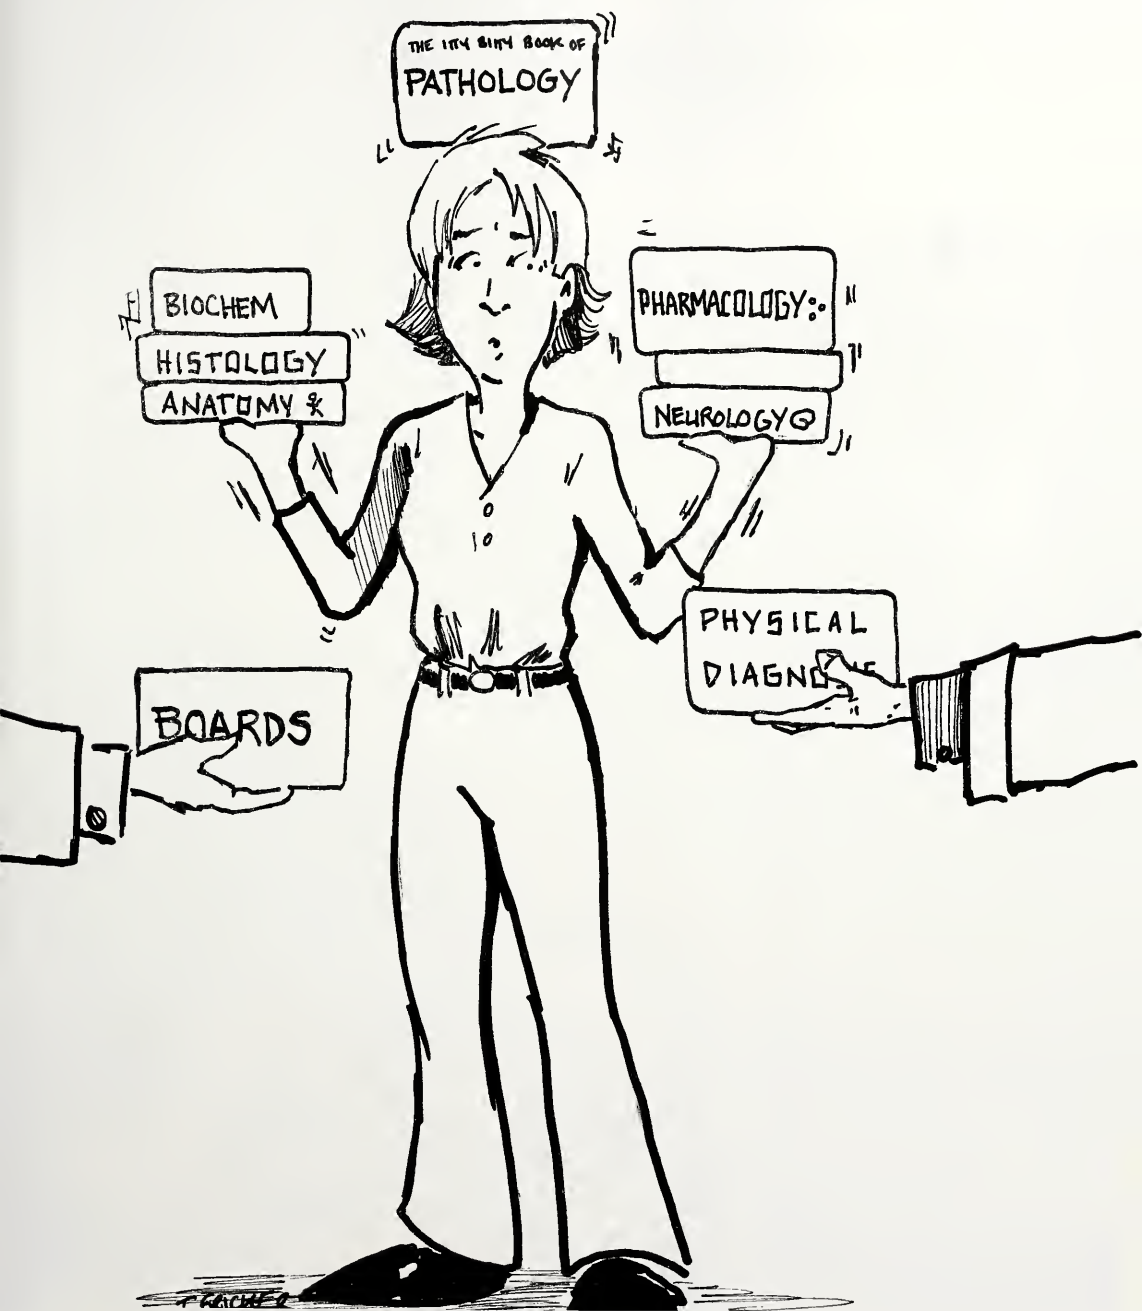

Everyday is Dave DeHart Appreciation Day.

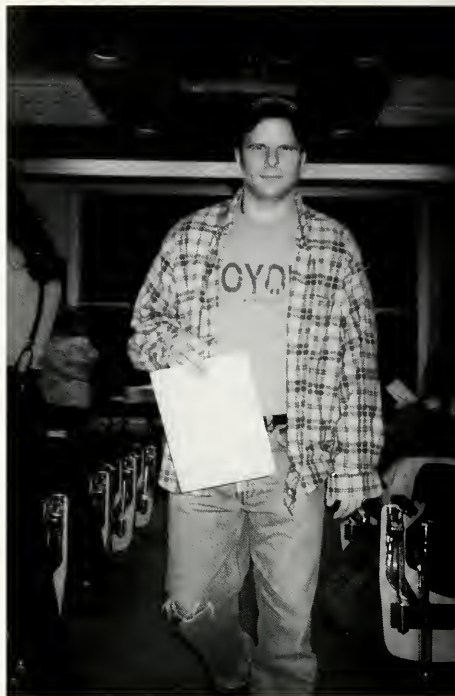

School's out!

Second Year

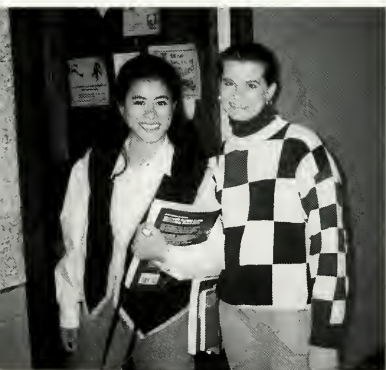

Jamie looking pleased with his performance on a path exam.

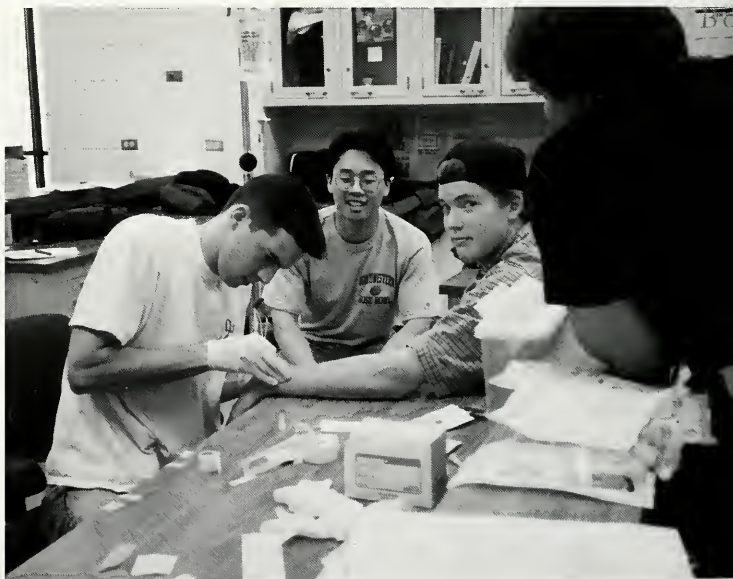

Dr. DeStefani and P-Dog small-group. What a handsome bunch.

Joe Kim observes as Joe Russo concentrates on starting his first IV line. Drew shows no sign of worry. (Approximately ten seconds after this picture is taken Drew would bleed profusely)

Joy and Mo are glad to be in the second-year hallway.

Charlie enjoys a Saturday study session in the fishbowl.

For your viewing pleasure: hemoglobin in 3-D
as viewed through nifty glasses.

Students eager to master auscultation make use of their newly purchased stethoscopes. Greg listens for neck bruits using the diaphragm. Thad attempts taking a blood pressure from the radial artery.

Post-Boards!!!

Who wasn't smiling after two grueling days? Time to party.

Two weeks until clerkships begin.

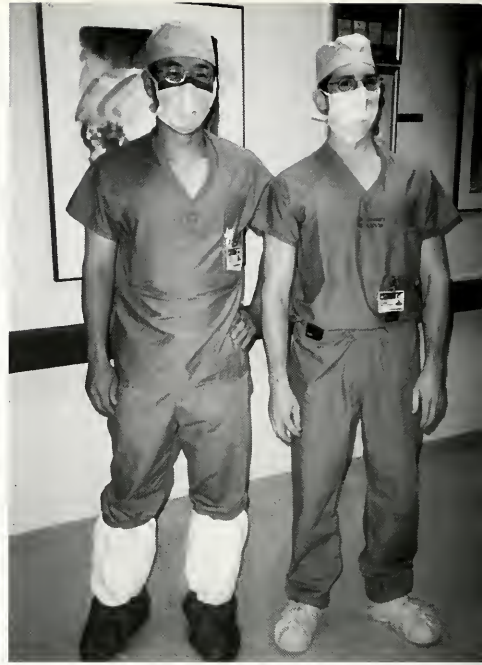

Third Year

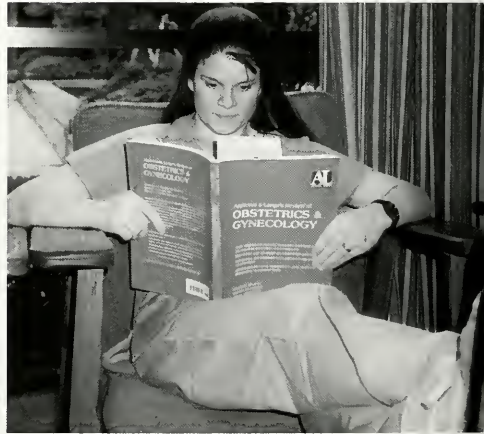

Joe and Nuge ready to retract.

Obstetrics Dream Team

Dr. Lichtenberg and peds team at bedside for some auscultation rounds.

Alissa catches up on her reading.

Amy in the clinic.

Cramming with Surgical Recall

Chris prepares for another delightful 8-hour Whipple.

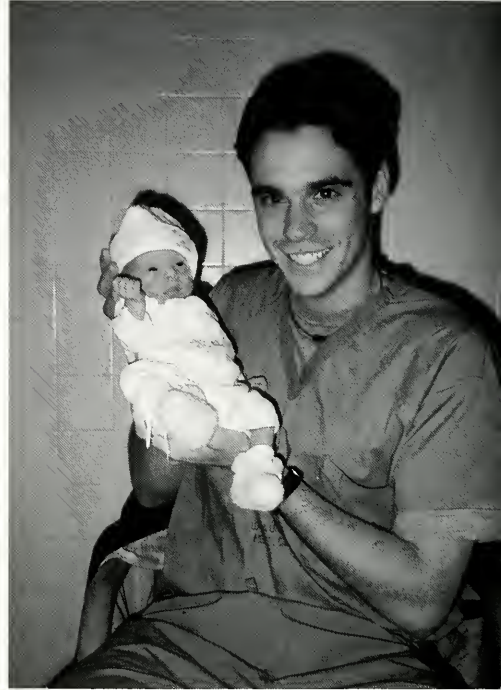

Frustrated that nobody else will listen to him,
Joe explains his assessment and plan to Ronald.

Picnic rounds: Dr. Pickelman and his
hungry piglets.

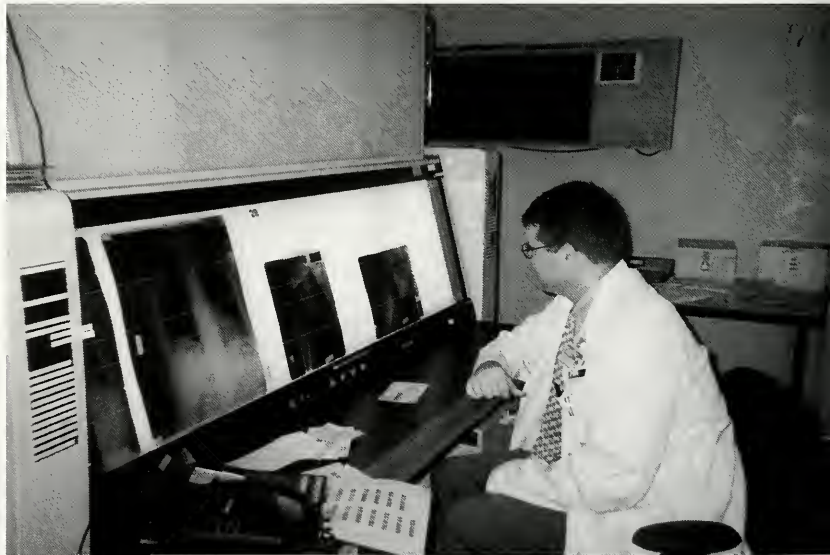

Late Nite at Loyola.
Hites sleeping with OR shoe covers still on.

Scott in newborn nursery presents his youngest patient yet.

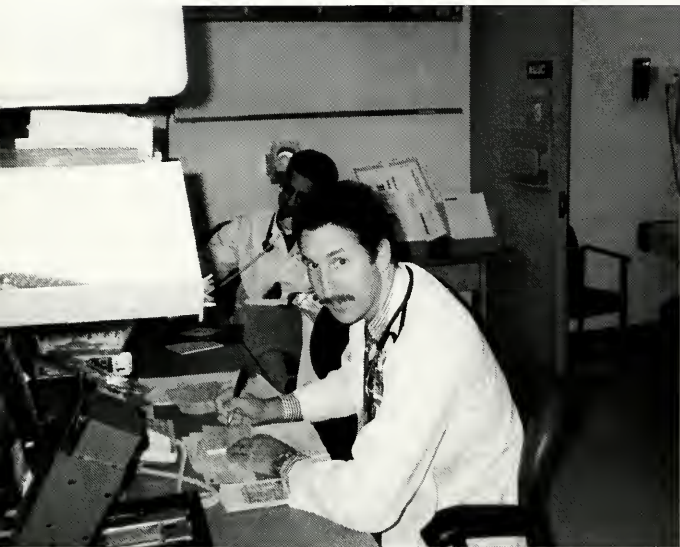

Future radiologist Brian O'Rourke:
"See, the arm bone is connected to the shoulder bone..."

Fourth Year

CCU! Hypotensive? Give'em a liter of saline
and call me in the morning.

Place: Hines ED. Time: 0300.
CC: Diarrhea x6 months.
Admit for four months.
Good job, Scott!

Working hard on Graphics.
Break number five -- 11:00 am.
Two hour lunch break to follow
in thirty minutes.

Cesar awaits his Medicine interview by making some calls in Dr. Simpson's office.

Torticollis Dave

Scott and Allen on late afternoon Neuro rounds with Dr. Gruener.

Dave shows how stress-free the residency application can be through the new ERAS system. Just don't lose your disk!

Lauren triple checks orders on all her patients in the HTU.

"I hate three things in life: Berwynites,
Californians and Domers."

"You may not be an honors student but you will
always be an honorable man."

-*Dr. Leischner,*
speaking to Jerry Oakey.

"Identify this...not this, not
this, not that...but this."

-*Dr. Clancy*

"You should have two goals
in life: one- have sex, two-
keep your pH at 7.4."

-*Dr. Ing,*

Dear Jenny,

5 lb 6 oz “bundle of joy”
5’ 4” of boundless energy

Jenny, you are and always have been a delight to your family. We are all proud of you for the beautiful person you’ve become, and of course, for your wonderful accomplishments. You carry on the medical legacy of those who have come before you - your Great Great Grandfather Metzger, your Grandfather Colwell, your Uncle Miles, and of course, your Father. The medical profession will be enriched by your knowledge, compassion, and wonderful spirit. You will definitely leave the world better than you found it. Our love and support go to you and Jim as you complete your training and begin your careers. Congratulations!

"Set me as a seal upon your heart, as a seal upon your arm; for love is strong as death, passion fierce as the grave. Its flashes are flashes of fire, a raging flame."

Song of Songs 8:6

Amaryllis, you now bear this seal. We know that you have always been blessed with the passion of your calling. We wish you everlasting grace to temper your gift with true wisdom, compassion and gentleness.

Your parents,
Jose Gil & Sonia Santos

Congratulations P.J.

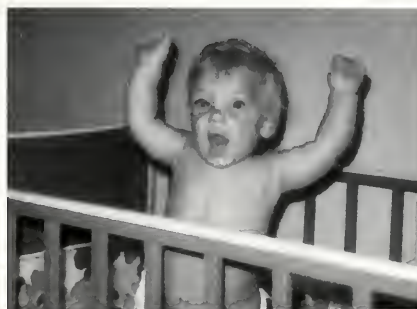

Remember when you practiced all your medical skills on Baby Beans, your family, and the dog. Back then your childhood patients never complained about the gritty candy pills, cold stethoscope, and overzealous injections.

Although it took a lot of hard work, dedication, and courage through the years, your commitment to loving and caring for others has made that little girl playing doctor to her doll into today's reality. May your life continue to be an incredible journey.

You have always been a blessing to us. May you continue to share the blessings of your healing hands and loving heart with others.

Love always,
Mom and Dad

SONNET NUMBER 1

*In the fall when the wind blows in the eve
Of a fading autumn day, I like to
Turn my thoughts to hopes, in throes are
deceived*

*Hopes shattered, hollow like an owl's
"WHO."*

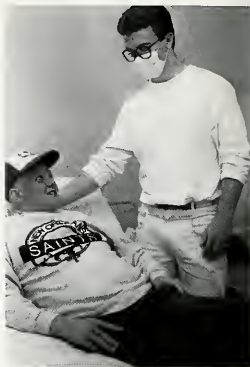

*Life is a journey, at birth a mountain.
A mountain unclimbed defies the child's
faith*

*With a goal, the paramount to attain.
But who, in nature's course, can defy
death?*

*What is death, but the destroyer of faith,
Crushing the innocence of life unived;
Life unrolled, new as the morning star;
Leaving dreams in the mind, there but a
mar.*

*I love life, and death will not be victor
O'er my faith, hopes, and dreams, a life
unlived.*

Dear Jill,

As you graduate from medical school, join me in remembering your words from your high school valedictorian speech:

“My fellow classmates, we leave here today to challenge this world which we have opened for ourselves. We are our own individuals, anxious to make choices right for us. Doors are opening. We need to take chances and make decisions.”

We all give you our love and support as you move on to residency, where you will take up new challenges and make more choices. We know that the patients you care for will always be at the core of those choices.

Love from us all,
Mom, Dad, Eric, Amy, Dan, Jordan and Schnapps

This little guy has made our
lives worthwhile
Chad Tattini

Take time to work, it is the price of success.

Take time to think, it is the source of power.

Take time to play, it is the secret to perpetual youth.

Take time to read, it is the foundation of wisdom.

Take time to be friendly, it is the road to happiness.

Take time to love and be loved, it is the privilege of God.

Take time to share, life is too short to be selfish.

Take time to laugh, laughter is the music of the soul.

Congratulations and may God be with you in your continuing
education.

Love, Mom, Dad and Shannon

would someday become Dr. Schmehr!!*

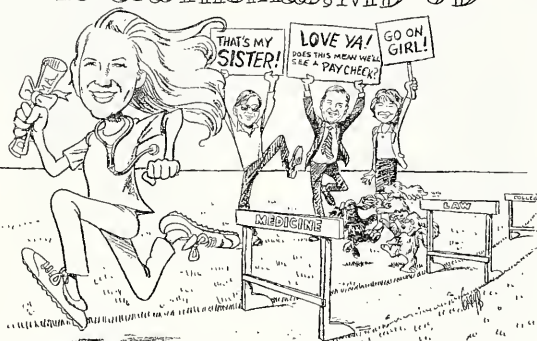

Michelle,

You've seen the mountain and climbed it all the way to
the top! Savor this moment! Glory in the well-earned
recognition for all your hard work! Know that your future
will be bright because you're an exceptional person. The
world needs all the talents and compassion you have to
offer.

Congratulations!

To our dear Andrew:

A joyous occasion graduation is indeed
Years of hard work paid off handsomely,

All of us wish you the best
When you're put to the test,
In all your future endeavors

Reality will deal you few favors, Knowing you have what it takes

To heal and comfort as your training dictates,

To serve your fellow men

In good conscience and with compassionate intent.

Congratulations!

1998 Caduceus Staff

In your hands is the final product of hours with the computer and photo cropper. We overcame hell, high water, (and gremlins who “deleted one-third of the book from the hard drive two days before the deadline) to bring you this 1998 Caduceus.

We wish to thank Phyllis and Toni in the Office of Campus Life for all their help in making this book possible. A huge thank-you also goes out to Mike Lambesis for being our advisor, soothing our panic, and keeping us honest by screening all the photos and text for obscenities. We couldn't have done this without you.

Finally, to our classmates: we hope you enjoy this volume of the Caduceus for many years to come. Thank you for being our colleagues and friends-without you there would be no memories to fill these pages. Be proud of all you have accomplished. We were guinea pigs for the very first “PBL”, we got half-naked in the hospital basement to change for anatomy, and we're old enough to know what an “MDL” is. Despite being the class in limbo when we outgrew the old school and didn't quite fit in to the new, we stuck together, got what we came here for, and maybe even learned some medicine along the way. We hope you will remember your experiences here fondly.

Best of luck and many blessings:
